

# "Letting Go"

*Dearly Beloved,*

~ I release you ~ I set you free ~

I cannot be with someone who doesn't want me  
So do as you please, and don't worry...

*Just Be*

Maybe someday Love will bring us back together  
Many things are uncertain, but one thing I know for sure...

My Love for you is undying; My love for you is *Pure*

Your soul has touched mine, deeper than the ocean

Transformed me, from within

*Heart Chakra, wide open*

Our meeting, by happenstance, was not without reason

So too is our parting... After all, *'tis the season*

Follow your heart, it shan't lead you astray

*Hawaii is calling...* perhaps there you may stay

Across a vast sea, far away you shall go

To embody the Yogi, in you that *I know*

Limitless potential, residing within

Let the Return of the Divine Feminine begin!

You're a Woman; You're a Warrior; You're a Goddess *without sin!*

There is *no obstacle* you cannot overcome

Shine light on the darkness, and away it will run

Love knows no boundaries, it endures all, my dear

I wanted *this*, to be Absolutely clear

So you can go on your journey, *free of fear*

If you ever feel alone, look to your heart

*~ I am here ~*
